THE PROBLEM

LACK OF DUE DILIGENCE

Minimal or non-existent identity checks on customers from unregulated exchanges.

FAKE VOLUME

Artificially inflated volumes from illegal wash trading.

SECURITY HACKS

Exchanges not having a tight and stringent security policy in place.

THE SOLUTION

BY WAY OF MANDATING REGULATION

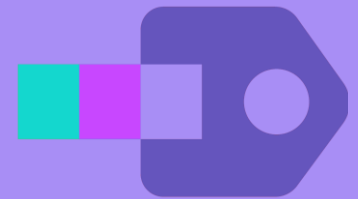

Tight KYC and AML procedures to prevent money laundering, fraud and corruption.

Smart Artificial Intelligence (AI) Engine enforces preventative action.

By design, first and foremost security is the foundation of our platform.

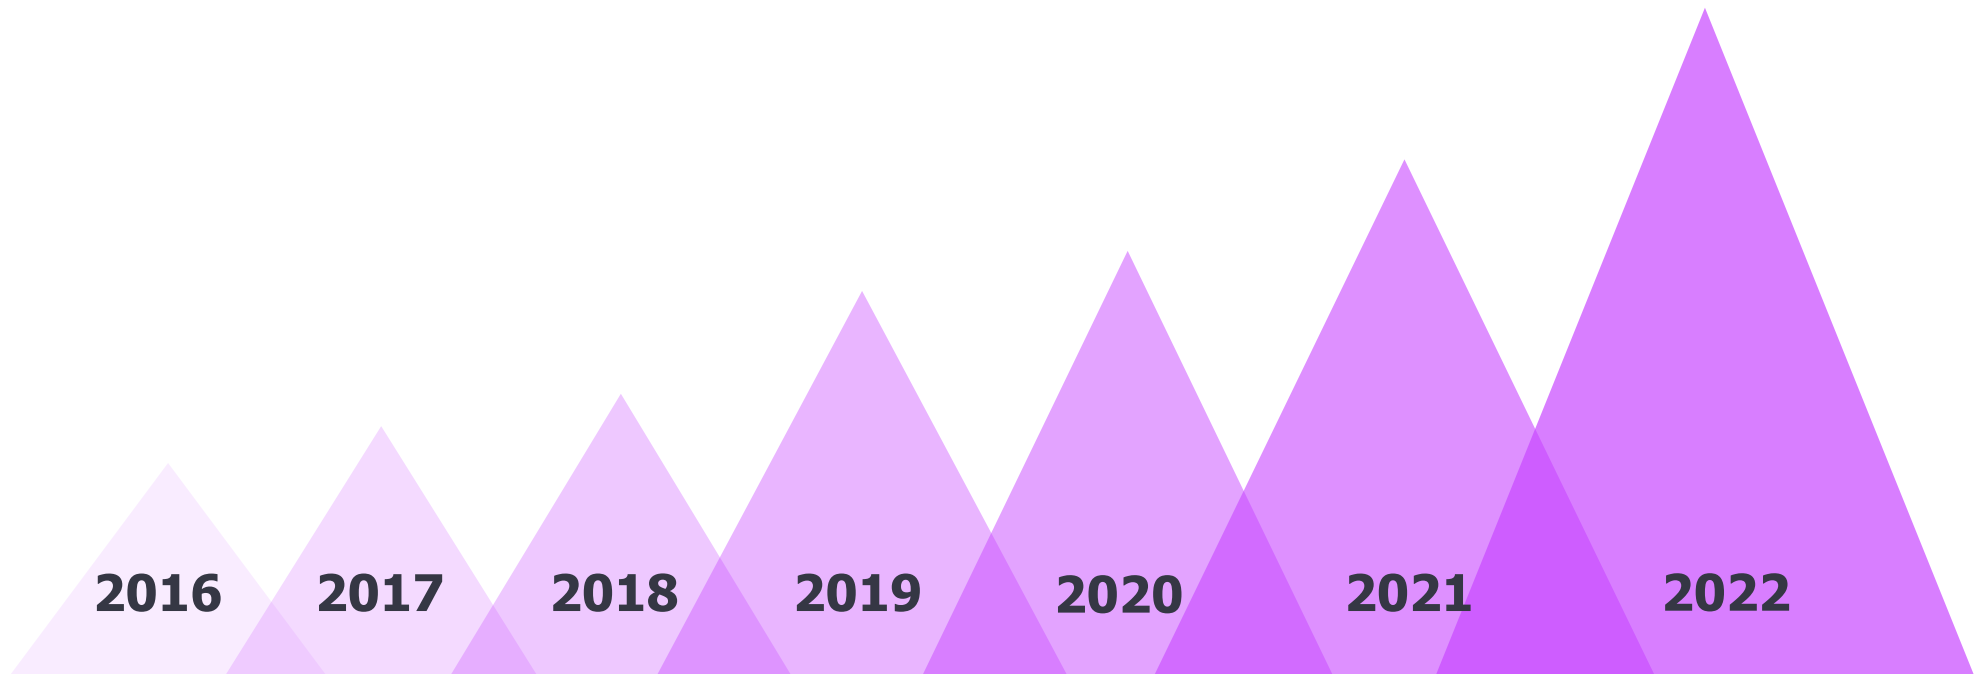

TAGZ Token
Greater liquidity and reduced exchange trading fees.
